Education

- **B.Tech. in Computer Science & Engineering (2020 - Present)**
  Pranveer Singh Institute of Technology, Kanpur

Projects

- **Office Employee Management System** ⌗
    - Designed and implemented a responsive Office Employee Management System with storing all data about employee.
    - Analyzed and integrated a user-friendly Employee Management System with features including adding, filtering, searching, and deleting employee data.
    - Technologies: Python, Django, Bootstrap, HTML, CSS, JavaScript.

- **Online Food Ordering Website** ⌗
    - Build a highly responsive Food-Ordering website, with food display-catalog and filtering capabilities.
    - Tech-stack used: HTML, CSS, Bootstrap, JavaScript and MySQL to deliver a seamless and responsive user interface.

- **Spotify Clone Website** ⌗
    - Created a web application replicating the core functionalities of the Spotify music streaming platform.
    - Utilized local storage for saving user preferences and playlist data.
    - Technologies: HTML, CSS, JavaScript, Bootstrap.

Work Experience

- **Web Developer — INTERNSHIP (09/2022 - 10/2022)**
  Oasis Infobyte ✔
    - To complete the assigned tasks each week and gain a deeper understanding of concepts through practical application of knowledge.
    - Developed a web calculator software, facilitating seamless execution of complex mathematical operations
    - Tech-stack used: HTML, CSS, Bootstrap, JavaScript.

- **Front-End Developer — INTERNSHIP (10/2023 - 11/2023)**
  Navodita Infotech ✔
    - Created a highly responsive Front-end product catalog for an E-commerce website, integrating dynamic product displays and product filtering capabilities.
    - Tech-stack used: Python, HTML, CSS, JavaScript.

Technical Skills and Interests

- **Languages:** Python, OOPS, Java, HTML, CSS, JavaScript, Bootstrap
- **Developer Tools:** Django, Node.js, MySQL, REST API.
- **Relevant Coursework:** Data Structures, Database Management System
- **Areas of Interest:** Web Development, Software Development, Python Development, Full-stack Development.
- **Soft Skills:** Problem Solving, Quick Learning, Communication, Leadership, Teamwork

Certificates

- Python(Basic) (08/2022 - 09/2022) ✔
- Data Structure and Algorithm using Python (10/2022 - 11/2022) ✔
- Data Analysis Course Completion (08/2022 - 09/2022) ✔

Achievements

- Solved 400+ Coding problems on various platforms, demonstrating strong problem-solving skills.
- Selected for TechExpo 2024 Organized by the institution, showcasing leadership and teamwork abilities.
- Achieved Linkedin Skill Assessment badge in Python, Django, MySQL and Node.js ranking in the top 15% performers, highlighting proficiency in relevant technologies.
